

Reward for Thorny Skate Tags!

The New England Aquarium is conducting a tagging study to examine the movement patterns of Thorny Skate in the Gulf of Maine. If you catch a tagged skate, please **measure the total length** from the tip of the snout to the tip of the tail (see example below), note the **identification number** on the tag and the **capture location and date** and call : **617-226-2284**
