Highlights

For over 30 years the Fishermen's Alliance has been working to build a better future for the fishermen and fish of Cape Cod by:

- Staying on top of regulations that affect fishermen's businesses every day
- Providing affordable quota to Cape Cod fishermen
- Building local and U.S. domestic markets for the fish our fishermen catch
- Educating the public about our fisheries and sharing local catch with the community
- Developing a fishermen training program
- Partnering with local, regional and national organizations to leverage expertise and make a bigger impact
- Safeguarding our ocean to ensure healthy fish populations

Membership gives fishing industry members a dedicated and knowledgeable team advocating for your fishery and available to answer your questions and concerns about the industry. It helps fishermen to voice their opinions about fishery policy changes and to be part of scientific research to inform management decisions.
